**More security for your baby/child, more free time for PARENTS!**  
Practicality of Mobi-Click Babyphone has no limits! If your child cries or wants to go out of the bed without your control, Mobi-Click Babyphone calls your mobile phone, which You always have about You! In case of an alarm MobiBaby schwitches automatically on in loud mode, so You can hear, what's happening in children's room. In this way You can speak to your child or calm it down. You can also reagulate a sensitivity of microphone and movement sensors, or set them, if Mobi-Click Babyphone should act at once or only after loud sounds like child's cry.

This device is easy in use: You can make it off and on with infrared remote control, by hand or by SMS. When your mobile phone is engaged, Mobi-Click Babyphone is trying to reach your mobile phone number many times. When You are not able to reached, the device can call your neighbours or grandparents. You can also overhear children's room everytime You want, if it's everything O.K there. Mobi-Click Babyphone pick up You call silently.
