EXECUTIVE

Panasonic KX-NT400 is an innovative and stylish high-end Executive IP telephone for the KX-NCP and KX-TDE communication platforms. Intuitive Graphical User Interface (GUI), touch-screen and a large colour display make the KX-NT400 Executive IP telephone highly user-friendly. The NT400 also comes with built-in Communication Assistant compact edition giving users quick and easy access to unified communications.

▶ KX-NT400 - KEY BENEFITS

Presence - See quickly who is available, and make contact at the touch of a button.

Enhance Productivity - Easily collaborate with team members from local or remote locations. Use instant messaging to easily chat with other NT400 or Communication Assistant users - using quick messages.

Efficiency – the directory integrates all your contacts into one single directory for fast and efficient communication.

Keep in Contact – users can easily access incoming, outgoing and missed call details and can quickly return calls from the Call Log Screen, helping to easily stay in touch with customers and avoid any potential loss of business opportunity.

Flexibility – the Call Control Screen allows users the added flexibility to control calls. Intuitive touch screen operation allows users to easily perform all operations - such as transferring a call, placing a call on hold or even recording a call.

Monitor your surroundings – Use the Camera Viewer Screen to monitor up to 20 registered cameras in areas such as reception, corridors, office or warehouse, ensuring that you always know what is happening in your premises.

User-Friendly - Large, colour touch screen interface enables quick and easy operation. Users can also receive incoming call pop up notifications for added convenience.

Fast Communication – Chat enables fast text based communication through the KX-NT400 touch screen using an on screen virtual keyboard, or an optional external USB keyboard.

Access Intranet Applications - The NT400 is HTML enabled - allowing quick access to business web applications which are run on a company's intranet.

Door Phone with Camera Integration – Network camera integration with a door phone allows added security, as employees can monitor and control access to office premises. A maximum of 20 door phones can be integrated.

WHO WOULD USE KX-NT400 EXECUTIVE IP TELEPHONE?

The KX-NT400 is a Unified Communication Application device, designed to enhance business communications. The unit offers a practical communications solution in locations where a PC is not required. Thanks to its Intranet functionality, users can easily access business applications running within the corporate network. This stylish, high-end IP telephone boasts many features that make it suitable for use in many industries, including hospitality, travel, retail, contemporary offices and call centres.

CONTEMPORARY OFFICES - EXECUTIVES, TEAM LEADERS, MANAGERS AND DIRECTORS.

Access real-time business information, check colleagues' availability and monitor call handling performance, such as number of calls missed or total number of calls handled. Gain quick access to business data without the need of a PC.

TRAVEL - AIRPORT, TRAIN STATIONS AND BUS/COACH STATIONS.

With appropriate business web applications developed by 3rd parties - NT400 can be deployed in businesses where it can be used to check travel schedules, transport delays, order tickets and get up to the minute weather updates.

RETAIL - SUCH AS DEPARTMENT STORES AND DESIGNER BOUTIQUES.

The KX-NT400 can be deployed in businesses where it can be used to check stock levels, delivery dates and the status of customer orders. Monitor shoppers within the store with the network camera integration.
