

EASY²WIRE

VIDEO DOOR PHONE SYSTEMS

Complete set for a 1-family house - digital 2-wire bus technology

Ideal e.g. for renovation of existing buildings or new installation where only 2 wires are available and a modern audio door communication system is desired

- Easy to install - the new digital 2-wire bus technology uses the existing doorbell cable for transmission of picture, sound and signal for door opener
- The sets are expandable up to 4 indoor units per dwelling unit
- Hands-free function
- Available for 1- and 2-family house

INDOOR UNIT

- 7 " color TFT display
- Visual ringer indicator: blue light frame around TALK and DOOR OPEN button
- 9 selectable ringtones
- Ringer volume adjustable
- Voice volume adjustable
- SILENCE button deactivates ring tone (e.g. for recovery) - red light flashing frame as a reminder
- MONITOR button (silent monitoring): switch camera of the outdoor unit ON or OFF
- Connection for door opener
- Surface mounting: cabinet height only 22 mm
- Intercom feature: Speaking from one indoor unit to another within a dwelling unit
- Connection for floor call button with its own bell tone to distinguish entry and flat door

SURFACE-MOUNTED OUTDOOR UNIT

- 3mm stainless steel front panel, brushed and laser cut
- High quality die-cast aluminum housing in anthracite (matt)
- Wide angle camera (135° horizontal / 100° vertical) with infrared night vision
- Sensor-controlled bell push illumination
- LED backlight technology - even lighting, durable + economical
- Door activation is indicated to the visitor visually and acoustically
- Surface mounting - cabinet height is only about 24mm (without lens)
- Connection for additional camera / outdoor units
