

# Boreal Hotel

Hotel Telephone

Model **BOREAL 10ML H**

Designed to provide today's hotel guests with the maximum of convenience, comfort and user features, the BOREAL 10ML H Hotel Telephone is ideal for the hotel industry.

**The sleek design** will match every hotel room and the durability guarantees a minimum of repair will be required, maximizing the return on your investment.

The BOREAL 10ML H Hotel Telephone features :

**Factory pre-programmable** autodial buttons, with icons and text identification for easy use by your guests, while increasing your revenues from chargeable services and reducing traffic to hotel operators. Access to programming is hidden from your guests.

**High visibly message** waiting lamp (for use with most PABX installations).

**Large face plate** which can be custom designed to include the hotel name, address, hotel logo, and dialing instructions and any other appropriate guest information.

**Data port** for use with a personal computer or fax machine.

**Amplified speaker** allowing other guests to listen to the conversation.

**Hands free speakerphone** to share conversation with guests or to keep both hands free while talking on the phone.

**High-Low ringer** volume settings (ringer cannot be turned off).
