

To make searching, listing and playing back recordings easy, Call Mynah has a number of features you will find useful.

Call Mynah always lists the most recent calls first and will show you information about each call including:

- Callers number or name from the Phonebook
- Date & time of call
- Call type (Incoming, Outgoing, Memo)
- If a call is Important!
- If you have added comments to a call
- If you have recorded the call (Call Mynah will note the details of all calls even if you didn't record it)

You can also choose to list calls by their type including:

- All calls
- Incoming Calls (answered and unanswered)
- Answered Calls
- Unanswered Calls
- Outgoing Calls
- Voice Memo's
- Call marked Important!

When you play a call, you will see full details including:

- Type of call
- Date, Time, Duration, Number or Phonebook name
- Any comments you may have added
- The current Play position (hh:mm:ss of total duration)

To help you navigate to important sections of a call, you can Pause, Resume Fast Forward and Rewind while playing back.
