Intelligent Recording

Call Assistant SD Call Recorder

Your Personal Assistant - Recalls every conversation

The Call Assistant from Intelligent Recording provides a compact, stand-alone Call Recording alternative for those wanting full-time or on-demand recording without being tied to a PC. It's the perfect solution for recording telephone calls on a single line or connected to the handset of a multi-line phone.

The Call Assistant has many of the features available on advanced PC based systems and also allows you to review and play back recordings directly from the device or transfer recordings to your PC via USB. Use the included XTR Desktop management software for playback, archive and management at your convenience.

The Call Assistant is designed for the Home, Small Business or users in a corporate environment. With 340 hours of storage on a 2Gb memory card, the Call Assistant is a perfect mix of stand-alone functionality with the convenience of PC management software when required.
