Congratulations on purchasing your Geemarc AMPLIDECT COMBI 295 telephone. This telephone offers all the advantages of cordless technology (compliant with Digitally Enhanced Cordless Telecommunications-DECT standard) together with an easy to see big button keypad, ideal for those who suffer with poor sight. This telephone is also hearing aid compatible. It is important that you read the instructions below in order to use your Geemarc telephone to its full potential.

PACKAGE CONTENTS

1 Telephone base, 1 Corded handset, 1 cordless Handset, 2 power adapter, 1 Charger, 1 Telephone line cord, 1 NiMh battery pack, 1 Quick user guide.

INSTALLATION

Connecting the telephone

Connect the telephone cable to the telephone line socket (A) and to the telephone wall socket (B).

Connect the handset curly cord to the base.

Connect the power adapter jack to base and charger (C) then connect the power adapter plug in mains power (D).

Note: Use only the power adapters supplied with the phone.

Connecting the battery

Plug the battery connector securely into the socket inside the handset battery compartment.

Insert the supplied battery as indicated.

Align the cover flat against the battery compartment, and then slide it upwards until it clicks into place.

Charging the batteries

Charge the batteries for at least 12 hours when charging for the first time.

Your telephone base includes a telephone answering machine that records unanswered calls when it is on. The answering machine can store up to 59 messages within the maximum recording time of approximately 15 minutes. As well as recording incoming messages, you can record memos for other users of your phone.

Press  **ANS ON/OFF** to switch the answering machine ON or OFF

REMOTE OPERATIONS

If you are away from your home, you can call your answering machine to switch on or off the answering machine and listen to your messages remotely using another tone-dialing phone.

- Place a call from a tone-dialing phone.
- When the answering machine answers the call and starts playing OGM, press .
- Enter the 4-digit Remote Access PIN (default PIN is **0000**).
- Press the following keys to carry out your desired function.

A	Functions	
	While message is not playing	While message is playing
2		Delete the current message playback
4		Repeat playing the current message from the beginning. Press twice to skip backward to the previous message.
5	Play the message	
6		Skip forward to play the next message
7	Turn on the answering machine	
8		Stop the current message playback
9	Turn off the answering machine	
*	Enter the 4-digit remote access PIN	

NOTE:

When your answering machine memory is full and the answer mode is in ANS & RECORD, the answer mode will change to ANSWER ONLY automatically.

It will change to ANS & RECORD mode automatically after some messages have been deleted.

You cannot delete new messages before they were listened.

MAINTENANCE

Clean the surface of the housing with a soft, fluff-free cloth. Do not use any cleaning agents or solvents.
