BELL-219 TX

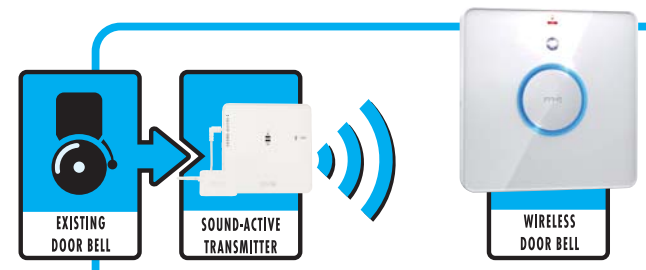

SOUND-ACTIVATED RADIO TRANSMITTER

Universal radio extension for your doorbell

Place the radio transmitter near the existing doorbell and attach the external microphone with the enclosed adhesive pad. As soon as your doorbell rings, a receiver connected by radio (e.g. radio chime) is activated.

- External microphone for placement directly at the signal source avoids unintentional triggering by ambient noise
- Sensitivity is continuously adjustable
- Radio range up to 200m (free field) - depending on receiver used
- Also works with telephones
- Ring tone selector switch
- Indicator lights for batteries and transmitting function

UP TO
200m
RANGE

FOR THE WIRELESS EXTENSION OF YOUR DOOR BELL

ACCESSORIES

- Compatible with all models of the BELL and FG series by m-e
- Expandable with up to 3 transmitters
- Expandable with any number of receivers
- Radio repeater to increase the range (model Bell-214 RT)
