SONARYA

Greater TV Speech Clarity for the Hard of Hearing.

People who have difficulties distinguishing certain sound often lose the simple pleasure of watching their favourite TV shows.

2.5 billion people, or 1 in 5 people, lives with some type of hearing impairment and can struggle with understanding dialogues on a TV.

To help them overcome this hurdle, Geemarc introduces its new TV speaker: the SONARYA.

The Sonarya by Geemarc is a wireless speaker that helps the hearing impaired better understand speech in TV programs and movies. Using AI technology, it reduces the background noise "pollution" and thanks to its 3 Voice Enhancement settings, it makes obtaining an ideal sound quality super easy.
